Vis DHS/DCS en titane stérile	480.XXXS	Voir listing joint

Madame, Monsieur,

Synthes met en œuvre une action corrective volontaire sur les vis DHS/DCS stériles. Nos informations indiquent que vous êtes concernés par ce rappel.

Description du problème :

Synthes dispose de deux types de connexion pour les vis DHS/DCS : connexion en deux plats ou connexion octogonale. Le pictogramme inscrit sur les étiquettes des références cidessus mentionnées indique la mauvaise connexion. Toutes les autres informations des étiquettes sont exactes.

Risque patient:

Il est peu probable qu'un évènement indésirable sérieux résulte du fait de cette erreur de logo (illustration du produit) sur l'étiquette de la vis DHS/DCS.

Une réclamation a été enregistrée et concerne un retard significatif durant une intervention chirurgicale à cause de cette erreur de logo sur l'étiquette. Ce retard peut donc nécessiter l'augmentation du temps d'anesthésie.

Synthes vous demande de bien vouloir :

- inventorier et nous retourner au plus vite les articles mentionnés ci-dessus
- renvoyer le formulaire dûment complété par fax au 03.81.31.25.71 ou e-mail oumanetz.sophie@synthes.com

Pour toute question complémentaire, notre service qualité se tient à votre disposition, vous pouvez le joindre au 03.81.31.25.50 ainsi que votre délégué commercial.

Nous vous présentons nos excuses pour la gêne occasionnée et vous remercions par avance de votre compréhension et de votre collaboration.

Veuillez agréer, Madame, Monsieur, l'expression de nos sincères salutations.
