

Scientific Day ANSM and EHESP

Nonsteroidal Anti-Inflammatory Drugs (NSAIDs) and acetaminophen (paracetamol) during pregnancy: impact on the urogenital apparatus

JANUARY, 27th 2017 – Room A012

ANSM 143-147 bd Anatole France 93200 Saint-Denis

- 9h00-9h15 *Welcome*
- 9h15-9h30 **Welcome**
Mahmoud Zureik – Director, Scientific and European Strategy Division at ANSM
Bernard Jégou - Vice-Dean for research of EHESP - School of Public Health
- 9h30-9h45 **Nonsteroidal Anti-Inflammatory Drugs (NSAIDs) and acetaminophen (paracetamol) during pregnancy and their impact on the urogenital apparatus: overview of the context**
Bernard Jégou – Director of Irset-Inserm UMR1085
- 9h45-10h15 **Prostaglandins, NSAIDs, paracetamol and development of the urogenital tract in mice**
Brigitte Boizet-Bonhoure – CNRS Montpellier
- 10h15-10h45 **NSAIDs, paracetamol and development of human fetal testis and ovaries**
Séverine Mazaud-Guittot – Irset-Inserm UMR1085
- 10h45-11h30 **The effect of NSAIDs and paracetamol on the development of the human urogenital apparatus: summary of current knowledge (epidemiological studies)**
Shanna H. Swan – Mount Sinai Hospital, New-York, USA
- 11h30-13h00 **Discussion**
- 13h00-14h00 *Lunch*
- 14h00-14h30 **NSAIDs and paracetamol: a Danish experience**
David Møbjerg Kristensen – University of Copenhagen
- 14h30-15h00 **NSAIDs and paracetamol during pregnancy: overview of vigilance data in France**
Elisabeth Elefant - Reference Centre on Teratogen Agents
Sophie Gautier – Pharmacovigilance Regional Centre of the Nord-Pas-de-Calais
- 15h00-17h45 **Dialogue between researchers and regulators**
- 17h45-18h00 **Conclusion – End of the day**
Mahmoud Zureik – Director, Scientific and European Strategy Division at ANSM
